

NAMES ANALYSIS REPORT Dancona Surname Meaning & Origin

There are many indicators that the name **Dancona** may be of Jewish origin, emanating from the Jewish communities of Spain and Portugal.

When the Romans conquered the Jewish nation in 70 CE, much of the Jewish population was sent into exile throughout the Roman Empire. Many were sent to the Iberian Peninsula. The approximately 750,000 Jews living in Spain in the year 1492 were banished from the country by royal decree of Ferdinand and Isabella. The Jews of Portugal, were banished several years later. Reprieve from the banishment decrees was promised to those Jews who converted to Catholicism. Though some converted by choice, most of these New-Christian converts were called CONVERSOS or MARRANOS (a derogatory term for converts meaning pigs in Spanish), ANUSIM (meaning "coerced ones" in Hebrew) and CRYPTO-JEWS, as they secretly continued to practice the tenets of the Jewish faith.

Hebrews of the Portuguese Nation, by Miriam Bodian |

This work explores why the Portuguese Jews of northern Europe never established a solid sense of belonging to the wider Sephardi diaspora. It explores how, historically, the Conversos lost the consciousness of being “Sephardi” in the generations after the expulsion from Spain and the mass baptism of Portugal’s Jews in 1497. To be sure, once the Portuguese ex-Conversos organized in Jewish communities, their leaders made efforts to reconnect with the wider Sephardi world, and these efforts had serious symbolic and strategic value. But the Portuguese Jews’ rootedness in the Converso experience meant that their core sense of collective self remained distinct. Contributing factors to their enduring sense of distinctness were these aspects of Converso experience: the absorption of Catholic notions of piety; the “de-rabbinization” of crypto-Jewish belief; and the difficulty for many Conversos of maintaining any stable set of traditional beliefs. The outward image their leaders sought to cultivate may have been one of Sephardi traditionalism, but, at an emotional level, members of these communities continued to regard themselves as members of the “na¸ão” — a term that evoked the Converso past.

Around the 12th century, surnames started to become common in Iberia. In Spain, where Arab-Jewish influence was significant, these new names retained their old original structure, so that many of the Jewish surnames were of Hebrew derivation. Others were directly related to geographical locations and were acquired due to the forced wanderings caused by exile and persecution. Other family names were a result of conversion, when the family accepted the name of their Christian sponsor. In many cases, the Portuguese Jews bear surnames of pure Iberian/Christian origin. Many names have been changed in the course of migration from country to country. In yet other cases "aliases", or totally new names, were adopted due to fear of persecution by the Inquisition.
