When the Romans conquered the Jewish nation in 70 CE, much of the Jewish population was sent into exile throughout the Roman Empire. Many were sent to the Iberian Peninsula. The approximately 750,000 Jews living in Spain in the year 1492 were banished from the country by royal decree of Ferdinand and Isabella. The Jews of Portugal, were banished several years later. Reprieve from the banishment decrees was promised to those Jews who converted to Catholicism. Though some converted by choice, most of these New-Christian converts were called CONVERSOS or MARRANOS (a derogatory term for converts meaning pigs in Spanish), ANUSIM (meaning "coerced ones" in Hebrew) and CRYPTO-JEWS, as they secretly continued to practice the tenets of the Jewish faith.

Dov Cohen has created an index of brides and grooms based on the organization of Ketubot (Jewish wedding contracts) from marriages within the Turkish community of Izmir. Events of these periods forced this community to emigrate to America.

Sangre Judia (Jewish Blood) by Pere Bonnin. Flor de Viento, Barcelona, 2006. A list of 3,500 names used by Jews, or assigned to Jews by the Holy Office (la Santo Oficio) of Spain. The list is a result of a census of Jewish communities of Spain by the Catholic Church and as found in Inquisition records. |

Pere Bonnin, a philosopher, journalist and writer from Sa Pobla (Mallorca), a descendant of converted Jews, settles with this work a debt "owed to his ancestors", in his own words. The book, written in a personal and accessible style and based on numerous sources, includes a review of basic Jewish concepts, Jewish history in Spain, and Christian Anti-Semitism. There is also a section that focuses on the reconciliation between the Church and Monarchy and the Jews, which took place in the 20th Century. In this study, Bonnin deals in depth with the issue of surnames of Jewish origin. In the prologue, the author explains the rules he followed in the phonetic transcription of surnames of Hebrew origin that are mentioned in the book. The researcher cites the Jewish origin, sometimes recognized and other times controversial, of historically prominent figures (like Cristobal Colon, Hernan Cortes, Miguel de Cervantes Saavedra and many others) and links between surnames of Jewish origin with some concepts in Judaism.. The book also

includes an appendix with more than three thousands surnames "suspected" of being Jewish, because they appear in censuses of the Jewish communities and on the Inquisitorial lists of suspected practitioners of Judaism, as well as in other sources. In the chapter "Una historia de desencuentro", the author elaborates on surnames of Jewish origin of the royalty, nobility, aristocracy, clergy, and also of writers, educators and university teachers during the Inquisition. Special attention is given to the "Chuetas" of Mallorca, the birthplace of the author.

Morasha website | Corfu Jews

It is not known exactly when the Jews settled in Corfu. It is believed that they were in the

Ionian islands from the Roman era, as reported by the historian and archaeologist Hebrew Josephus. This site contains an overview of the history of the Jewish population of Corfu and names of some Jewish families from the island.

Around the 12th century, surnames started to become common in Iberia. In Spain, where Arab-Jewish influence was significant, these new names retained their old original structure, so that many of the Jewish surnames were of Hebrew derivation. Others were directly related to geographical locations and were acquired due to the forced wanderings caused by exile and persecution. Other family names were a result of conversion, when the family accepted the name of their Christian sponsor. In many cases, the Portuguese Jews bear surnames of pure Iberian/Christian origin. Many names have been changed in the course of migration from country to country. In yet other cases "aliases", or totally new names, were adopted due to fear of persecution by the Inquisition.

Some common variations of **Obadia** are [Obadiah](#) and [Ovadiah](#).
